DIARY NOTES

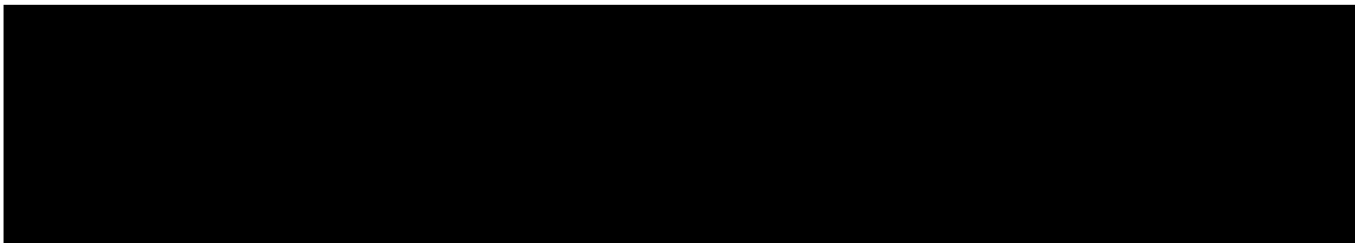

25X1A

DD/S

22 October 1957

25X1C4a

25X1A9a

2. Spent considerable time with Ed Saunders, [redacted] and [redacted] in connection with TSS's reluctance to supply the Bureau of the Budget with information which it had requested concerning contracts leading to the development of materiel. The TSS representatives agreed...although still reluctantly...to supply the necessary data. (Submitted on 23 October.) 25X1A9a

3. Dr. Tietjen reported that the Department of State now had adequate Asian flu vaccine to meet their own needs and therefore recommended that we turn back to the supplier the 4,000 units which we had planned previously to give to them. I approved of this but asked him to check with me before returning more than that amount.

4. Gates Lloyd and I met with Congressman Broyhill and Messrs. Holland and Kendrick of the Old Dominion Bank concerning the latter's desire to supply our banking services when we move to Langley. I told them that we would give this request every consideration. (See Gates' Memorandum for the Record.) H

5. At Stan Grogan's suggestion Miss Jean Rogers of the Washington Post and Times Herald telephoned for information concerning our assurances of public transportation to and from the Langley site. I reviewed with her our conferences with the various public transportation companies and particularly those with the Washington, Maryland, and Virginia Coach Company who have assured us in writing that they will furnish necessary transportation. 6. [redacted] called to say that agreement had been unable to be reached with the Federal Bureau of Investigation, the National Security Agency, etc., on the reciprocal communications question which has been before the National Security Council and the President. After a meeting with General [redacted] he is prepared to recommend that some impartial body such as the Killian Committee look into this matter. He doesn't think that the FBI will like this but believes that it is the right course for us to follow. I concurred. 25X1A9a
